

ATM Benefits Schools, Teachers, and Students

What ATM can do for schools ...

Provide an interface to link with other schools located locally and across the state

Provide the ability to share resources with other schools

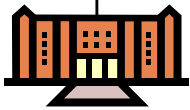

Provide a medium to demonstrate what your school has to offer

Increase technology access

Expand academic programming

Increase staff development opportunities

Cut down on travel time to meetings and professional development events

What ATM can do for teachers ...

Provide professional development opportunities

Provide a means to connect with resources and experts around the world

Provide a means to interact with students and professionals around the world

Provide the medium to share ideas and collaborate with other teachers

Encourage the acquisition of new technology and teaching skills and techniques

Provide the ability to enhance and extend curriculum

What ATM can do for students ...

Offer the ability to take classes normally unavailable or that do not fit their schedule

Offer high-level course work in preparation for college

Provide a means to interact with students and professionals across the state

Enable real-time visual and verbal interaction with the wider world

Provide a means to develop communication and presentation skills

Introduce projects, guest speakers, and seminars to the curriculum

Provide a vehicle to participate in virtual trips giving exposure to people and places that would otherwise be inaccessible
